

Masterclass - Nursing, Midwifery and Genomics: The Present and the Future

You are invited to join us for this 'masterclass' aimed at Directors of Nursing, Heads of Midwifery and Senior Nurse Leaders

Date: 16 October 2019 **Time:** 12.00 – 16.30 (Lunch available)

Venue: DoubleTree Hotel, Piccadilly, Manchester

This masterclass is part of a wider nursing and midwifery collaborative programme being led by the Chief Scientific Officer in partnership with the Chief Nursing Officer.

“The Nursing and Midwifery Collaborative is an exciting programme that will enable and empower nurses and midwives to undertake a role, to be supported in terms of education and training and to be empowered in the conversations they have with patients and family members”

Professor Dame Sue Hill

Chief Scientific Officer & Senior Responsible Officer for Genomics

“We are playing a key role in the NHS's developments in genomics and how we can bring this pioneering work into the daily care provided to patients across our ecosystem”

Dr Ruth May

Chief Nursing Officer

We will share with you:

- How genomics is changing the face of healthcare and what this means for nurses & midwives
- Exceptional genomics related work that nurses and midwives are leading across the North of England
- Stories and case studies from nurses and midwives who will tell us how they have led or influenced service transformation to change care, diagnosis and treatment for people and their families
- A story from a carer who will describe the difference genomics has made to their experience of treatment and care
- The education and training resources being developed by the Genomics Education Programme to support workforce development
- News of the forthcoming NHS England Nursing & Midwifery-led Genomics Collaborative Programme, and how you can get involved.

Our key speakers feature experts in the field of genomics and nursing/midwifery:

Professor Mark Radford,
Director of Nursing, Deputy Chief Nurse,
NHS England & NHS Improvement

Professor Janice Sigsworth,
Chief Nurse at Imperial College Healthcare NHS Trust

Angela Douglas MBE,
Deputy Chief Scientific Officer, NHS England

Dr Anneke Seller,
Scientific Director, Genomics Education
Programme, Health Education England

CHAired BY Kathy Murphy, Director of Nursing and Midwifery, Saint Marys Hospital, Manchester
